

February is Dental Month at North Oatlands Animal Hospital

Did You Know...

70% of cats and 80% of dogs have some sign of dental disease by the age of two...

Dental disease, if left untreated, can become severe and lead to tooth loss, bad breath, difficulty eating, and pain that affect a pet's quality of life...

Bacteria in the mouth can travel through the bloodstream and impact vital organs like the heart, liver, and kidneys...

**Help prevent dental disease and many other conditions
by keeping your pet's mouth healthy and clean!**
